DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipate by Royal et al. (6,269,658). Royal discloses a cryogenic rectification system with pulse tube refrigeration and comprising: pulse tube refrigeration system (76) whereby it is cooled by the passage of refrigeration from the pulse tube refrigeration system into a heat exchange fluid such as argon, a pressure column (10) whereby nitrogen-enriched vapor is withdrawn from a upper portion and oxygen enriched liquid is withdrawn from the lower portion of said column in a stream (62).

Allowable Subject Matter

Claims 7-16 are allowed over the prior art of prior.

Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
